

NATURAL RESOURCE COMMISSION[571]

Adopted and Filed

Pursuant to the authority of Iowa Code subsection 455A.5(6), the Natural Resource Commission hereby amends Chapter 106, “Deer Hunting by Residents,” Iowa Administrative Code.

Chapter 106 gives the regulations for deer hunting by residents and includes season dates, bag limits, possession limits, shooting hours, areas open to hunting, licensing procedures, means and methods of take, and transportation and reporting requirements.

The amendments:

1. Modify the blaze orange requirement for blinds during the shotgun season so that the visible orange is a minimum size, not a specific shape, and clarify the definition of a blind for this chapter.
2. Clarify that antlerless deer are tagged on a leg and antlered deer are tagged on the main beam of the antler. This change will keep the tag from pulling off accidentally during transport.
3. Clarify that a person may not tag a deer with a tag purchased after the deer was taken.

Notice of Intended Action was published in the Iowa Administrative Bulletin on June 29, 2011, as **ARC 9587B**. A public hearing was held on July 19, 2011. No comments were received from the public. At the request of a member of the Administrative Rules Review Committee, the definition of a blind was changed from the Notice to clarify the intent of this rule making.

After analysis and review of this rule making, no impact on jobs has been found.

These amendments are intended to implement Iowa Code sections 481A.38, 481A.39, 481A.48, 483A.8C, 483A.24, and 483A.24B.

These amendments shall become effective October 12, 2011.

The following amendments are adopted.

ITEM 1. Amend subrule 106.7(8) as follows:

106.7(8) *Hunting from blinds.* No person shall use a blind for hunting deer during the regular gun deer seasons as defined in ~~106.2(3)~~ 106.2(2), unless such blind exhibits a solid blaze orange marking which is a minimum of 144 square inches in size and is visible in all directions ~~with a minimum height of 12 inches and a minimum width of 12 inches.~~ Such blaze orange shall be affixed directly on or directly on top of the blind. For the purposes of this subrule, the term “blind” is defined as ~~a place of concealment constructed, an enclosure used for concealment while hunting, constructed~~ either wholly or partially from man-made materials, and used by a person who is hunting for the purpose of hiding from sight. A blind is not a naturally occurring landscape feature or an arrangement of natural or agricultural plant material that a hunter uses for concealment. In addition to the requirements in this subrule, hunters using blinds must also satisfy the requirements of wearing blaze orange as prescribed in Iowa Code section 481A.122.

ITEM 2. Amend rule 571—106.9(481A) as follows:

571—106.9(481A) *Transportation tag.* A transportation tag bearing the license number of the licensee, year of issuance, and date of kill properly shown shall be visibly attached to ~~the carcass~~ one leg of each antlerless deer or on the main beam between two points, if present, on one of the antlers of an antlered deer in such a manner that the tag cannot be removed without mutilating or destroying the tag. This tag shall be attached to the carcass of the deer within 15 minutes of the time the deer carcass is killed ~~located after being taken~~ or before the carcass is moved ~~in any manner, to be transported by any means from the place where the deer was taken,~~ whichever occurs first. No person shall tag a deer with a transportation tag issued to another person or with a tag that was purchased after the deer was taken. During the youth/disabled hunter season, bow season, early muzzleloader season and late muzzleloader season, the hunter who killed the deer must tag the deer by using the transportation tag issued in that person’s name. During the first and second regular gun seasons and the November and January antlerless-deer-only seasons, anyone present in the hunting party may tag a deer with a tag issued in that person’s name.

This tag shall be proof of possession and shall remain affixed to the carcass until such time as the animal is processed for consumption. The head, and antlers if any, shall remain attached to the deer while being transported by any means whatsoever from the place where taken to the processor or commercial preservation facility or until the deer has been processed for consumption.
